DETAILED ACTION

Response to Arguments

Applicant's arguments, see pages 15-17, filed June 18, 2009, with respect to claims 1, 2, 6-18, 20-25, 27-37, 48, 49, and 51 have been fully considered and are persuasive. The objection to claims 9, 11, 13, 16-18, 20, 27, 32, 35-37, and 51 and the rejection of claims 1, 2, 6-8, 10, 12, 14, 15, 21-25, 28-31, 33, 34, 48, and 49 have been withdrawn.

Allowable Subject Matter

Claims 1, 2, 6-18, 20-25, 27-40, 48, 49, and 51 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 2, 6-10, 12, 14, 15, 21-25, 28-31, 33, and 34, the prior art, as best exemplified by US 2002/0135727 to Nakaminami et al., taken individually or in combination, fails to disclose or render obvious that the aligned sets are offset from one another.

Regarding claim 11, the prior art, as best exemplified by Nakaminami, taken individually or in combination, fails to disclose or render obvious that the interconnected portions comprise semi-circular portions.

Regarding claim 13, the prior art, as best exemplified by Nakaminami, taken individually or in combination, fails to disclose or render obvious that the interconnected portions comprise substantially hexagonal portions.

Regarding claim 16, the prior art, as best exemplified by Nakaminami, taken individually or in combination, fails to disclose or render obvious that the second layer comprises a random arrangement of portions.

Regarding claims 17, 18, 38-40, 48, 49, and 51, the prior art, as best exemplified by Nakaminami, taken individually or in combination, fails to disclose or render obvious that each of the portions has a length, the portion length being selected to prevent fracture when the first layer is deformed.

Regarding claim 20, the prior art, as best exemplified by Nakaminami, taken individually or in combination, fails to disclose or render obvious that the first layer comprises polycarbonate.

Regarding claim 27, the prior art, as best exemplified by Nakaminami, taken individually or in combination, fails to disclose or render obvious that the third layer is Poly-3,4-Ethylenedioxythiophene.

Regarding claim 32, Nakaminami the prior art, as best exemplified by Nakaminami, taken individually or in combination, fails to disclose or render obvious that each of the portions has a length, the portion length being dependent on the spacing and size of pixels in the liquid crystal display device.

Regarding claims 35 and 36, Nakaminami the prior art, as best exemplified by Nakaminami, taken individually or in combination, fails to disclose or render obvious a plurality of spaced apart pixels, the second layer comprising an electrode which is arranged to meander periodically between the pixels, the period of the meander being dependent on the pixel spacing.

Regarding claim 37, the prior art, as best exemplified by Nakaminami, taken individually or in combination, fails to disclose or render obvious that the second layer comprises a brittle material.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
